Forecast for Monday 07 Jun 2021

Weather: On the cloudy side, particulalrly first thing in the west, with this cloud dispersing during the first part of the morning. Perhaps brightest during the afternoon, with some hazy sunny spells. Any cloud will disperse during the evening leaving the Brecon Beacons under largely clear skies.

Chance of cloud free mountain/hill tops above 600m: 60% early morning rising to 90% by midday.

Visibility: Poor to moderate initially with early morning mist and low cloud soon lifting and clearing, visibilities becoming very good from mid-morning with distant hills and mountains visible from summits.

Valley	12/11	14/13	16/14	16/14	14/13	10/9	8/8
Freezing Level*	1600m	1500m	1500m	1500m	1700m	1700m	1800m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

High UV levels are likely to be high despite the cloud cover, so sun protection is recommended if you plan to spend much of the day in the mountains.

Recent rainfall: measured at Neuadd: altitude 353m
